

My Advocacy Action Plan

Preparing for the 2027 Montana Legislative Session

Why Create an Advocacy Action Plan?

Advocacy doesn't begin when the legislative session starts. It begins long before a bill is introduced.

A simple plan can help you:

- Identify the issues that matter most to your program and community.
- Prepare to share your experience with confidence.
- Build relationships with decision-makers before the legislative session begins.
- Take meaningful action that helps strengthen Montana's child care system.

Issue ➡ What challenge am I seeing?

Solution ➡ What change would help?

Opportunity ➡ What is one action I can take before the legislative session?

Remember: You don't have to be a policy expert to be an advocate. Your experience matters, and your voice can help shape policies that affect children, families, and child care businesses.

My Issue: What issue matters most to you?

--

My Why: Why does it matter?

--

My Goal: What change do you want to see?
